

BOILERS, WATER HEATERS

COLUMBIA BOILER: Industrial boiler systems. Low pressure and high pressure systems for various industrial and commercial applications. www.columbiaboiler.com

ENGLISH BOILER, LLC: A Superior Holding company, English Boiler is a leading manufacturer of industrial package watertube boilers serving utility, industrial and commercial markets. www.englishboiler.com

FULTON: Durable, Reliable, Fulton. Fulton specializes in custom engineered industrial and commercial heating systems featuring steam boilers, hot water and hydronic boilers, thermal fluid (hot oil) heaters, electric boilers, temperature control units and a full range of ancillary equipment. With manufacturing facilities in the United States, Great Britain and China, Fulton is a worldwide leader in the development of heat transfer products. www.fulton.com

SUPERIOR BOILER WORKS: Leading manufacturer of Scotch Marine Firetube Boilers and associated boiler room equipment for process steam, hot water and waste recovery since 1940's and is a facilitator of Green Energy solutions with boilers powered by Alternative fuels. www.superiorboiler.com

WEIL-McLAIN: A leading designer, manufacturer and marketer of gas and oil-fired hot water and steam boilers for space heating in residential, commercial and institutional buildings. Building on a tradition of quality and innovation, our mission is simple: to design and build the best comfort heating products on the market, to make them first and to make them last — for decades. www.weil-mclain.com

BURNERS – GAS, OIL AND COMBINATION

POWER FLAME: The #1 manufacturer of custom tailored multi-fuel burners designed for all combustion applications. Ratings from 300 to 63,000 MBH. www.powerflame.com

GAS FIRED HEATING AND VENTILATION EQUIPMENT

DETROIT RADIANT: Premier line of gas fired infrared heating equipment since 1955. Re-Verber-Ray brand name. www.reverberray.com

GAS BOOST SYSTEMS

ACTION BLOWER & EQUIPMENT: The Model PDGB gas boost systems from Action Blower & Equipment provide a complete turnkey solution for applications in which the available gas pressure is not adequate to meet the required demand. www.actionblower.com

BOILER AND BURNER AUXILIARY EQUIPMENT

AUTOFLAME: A world leader in boiler/burner management systems for both commercial and industrial applications. Focusing on reducing oil and natural gas consumption, boiler house emissions, and labor costs. Systems feature touchscreen interfaces and rugged steel construction. Sophisticated burner management systems maximize the efficiency of the boiler plant, dramatically reducing fuel consumption, costs and harmful emissions. www.autoflame.com

FABTEK: Family owned company primarily engaged in the manufacture of condensate return units, boiler feed systems, custom tanks, pumps and accessories utilized for the efficient collection and return of steam condensate. Fabtek tanks, pumps and accessories are of the highest quality built to withstand difficult environments. Highly vertically integrated, designing many of the components in house and manufacturing them in our CNC Machining Center. www.fabtekaero.com

HONEYWELL: Commercial/Industrial flame safeguard controls. ControlLinks — modulating air/fuel ratio control systems. Eliminates linkage connections to fuel valves and air damper. www.honeywell.com

LEONARD: In business for over 40 years, Leonard specializes in manufacturing and selling various pumps, tanks, heat exchangers and accessories. All tanks and heat exchangers are ASME certified and tested.

MARLO INCORPORATED: Marlo offers an extensive line of equipment to solve water treatment problems in the most efficient and cost effective manner possible. Marlo designs and manufactures a wide array of products ranging from standard equipment to custom engineered systems tailored to comply with specific customer requirements. www.marlo-inc.com

SECURITY CHIMNEYS INTERNATIONAL: Industrial and Commercial line features four highly engineered chimneys for factories, schools, institutional and a variety of commercial applications. CAD custom-designed program provides the state-of-the-art assistance required to meet the exacting standards of architects and engineers. www.securitychimneys.com

SIEMENS: Combustion control gas valves, control motors, flame safeguards, electronic burner management systems, temperature and leak test controls approved for use worldwide. Siemens combustion products feature modular construction for single source simplicity. Component compatibility assures low installation and operating costs plus dependable, safe operation. Rigorous quality testing optimizes reliability and process performance. www.scccombustion.com

SIERRA MONITOR: Sierra Monitor provides gas detection systems for safety of personnel and plants, protocol converters for easy interface between devices and networks, and telecom remote site management systems. www.sierramonitor.com

STERLING: Sterling, a sister company of ACS Group, manufactures valves, traps, condensate pumps and more, for steam and hot water systems. Their products cover wide-ranging industries from plastics to machining, to food and pharmaceutical. They are committed to achieving high quality products and services, on time delivery, and cost effective solutions. www.acscorporate.com/sterling

SUPER RADIATOR COILS: Super Radiator Coils has been providing high-quality products since 1928, and has a long tradition of excellence and unparalleled customer service. Many customers consider Super Radiator Coils the industry specialist in heat transfer and economizers. www.srcoils.com

WATER KING: Since 1934, Water King has been delivering experience, quality, and service to meet the needs of the water treatment industry. We take pride in our ability to deliver a complete, packaged product. Our products are reliable, long-lasting and easy to install. www.waterking.com
